EXPERIENCE

Freelancer musician, Brazil

2004 - 2019

- Fifteen years as a professional musician
- Part of several teams with different profiles of people
- Great team player. For a certain musical work, it is important that everyone knows that the main thing for the client is the final result of the team, and not that stars want to shine more than others individually all the time. As a drummer, my main function within the team was to provide a consistent basis for others to perform in a safe and comfortable way.
- Played in the Brazilian army. I am able to be collaborative even in an extremely hierarchical environment and under pressure.
